

Evgenii Litvinov

Jose Bermudez

Thanh Ly

Professor Raj Singh

COSC 4353 Software Design

February 16, 2022

Group 14 - Assignment 2

1. Provide a link to the GitHub repository for TAs to view the code? (1 point)

<https://github.com/TheEvgenii/COSC4353---Project-Groups-14>

2. Discuss if your design and development methodology has changed since assignment 1 and why? (1 point)

We still using the Agile model for this project at this moment. We haven't got any trouble with Agile when doing this project.

3. List what front-end technologies you are using and why. List who is responsible for doing what in your group? (2 points)

When accessing the application Thanh made the client register (if it's their first time purchasing)/login (returning customer) with the required information using Bootstrap HTML, CSS framework. Evgenii made a fuel quotes history tab by using HTML, CSS, and Bootstrap framework. Jose made the fuel quote tab by using CSS, HTML.

4. Provide screenshots of your front end, each page? (5 points)

Fuel History

Welcome to your transactions

New Transaction

Date	Gallons Requested	Delivery Date	Price	Price per Gallon
11/12/2021	50	11/15/2021	\$139.5	\$2.79
12/15/2021	60	12/20/2021	\$161.4	\$2.69
01/01/2022	40	01/12/2022	\$127.6	\$3.19
05/06/2023	55	05/10/2022	\$186.45	\$3.39

Fuel History
